

Ratu Kini Backpackers & Dive Resort

Mana Island, Fiji

PADI Underwater Naturalist and Fish ID Specialty Diver Courses

Did you know:

- ◆ That coral reefs are made up of millions of tiny animals yet form structures so large that they can be seen by astronauts from space?
- ◆ That whilst coral reefs cover less than one percent of the Earth's sea beds, that they account for over one third of marine life biodiversity?
- ◆ That one fish, the Shrimp Goby, shares its home with a blind shrimp. Each playing a vital role in the others survival?

It's a fascinating world down there!

Learn more about the underwater world by completing a PADI Underwater Naturalist or Fish ID Specialty Course
